The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

I appreciated the public hearing in San Diego May 12th,
an opportunity to get familiar with your plans. However I
am disappointed that water conservation is not a top priority and I
do not believe the Bay Delta should be the source of our future
insatiable water needs. Its time to find a better solution and stop spending
money on more concrete and water diversion from that already despoiled
environment. We should take responsibility to try to restore as much
as we can, the natural state of the Bay Delta and find other solutions
to water needs such as de salinization, reclamation, conservation
and **POPULATION** controls & limits on Development. There is no excuse
for not dealing with all these issues.
